Registering for MyChildren’s

MyChildren’s is a convenient, easy to use and secure way to access your child’s health information from Boston Children’s Hospital. To register for a MyChildren’s account, go to MyChildrens.org and follow these steps:

1. From the MyChildren’s home page, click **Sign Up for an account**.

2. From the 3 Step Overview page, click **Ready to Start**.

3. On the Terms and Conditions screen click **I accept**. Create my account.

4. Indicate if you are the patient, then click **Continue**.

5. Fill in the fields shown below with the parent or patient information.

6. Click **Submit**. The following screen displays:

7. You’ll receive an email similar to the one displayed below:

---

**MyChildren’s at Boston Children’s**

**Registration**

* Are you the patient?
  - [ ] Yes
  - [ ] No

**MyChildren’s at Boston Children’s**

**Adolescent Account Access**

Adolescents aged 13-17 can request their own MyChildren’s account. Adolescents aged 13 and 14 years old will be notified that an account has been created.

---

**User Chakery Saru**

You have requested a Boston Children’s Hospital MyChildren’s account.

To begin the registration process:

1. Go to: [https://mychildrens.bostonchildrens.org/verification](https://mychildrens.bostonchildrens.org/verification)
2. Enter your email address.
3. Enter the one-time PIN: 293E6XV42

Thanks for using MyChildren’s.

To contact the MyChildren’s team, go to [https://mychildrens.bostonchildrens.org/help](https://mychildrens.bostonchildrens.org/help) and complete the Contact Us form.

Thank you,

The MyChildren’s Team

Note: This is an automated email. Please do not reply.

Saral@gmail.com
From the email you receive, click the link in step one; the following page appears.

8. Log in with your email address and the one-time PIN contained in the email and click Continue. The following screen appears:

Create a password using the criteria listed. As criteria are met the bullets change from red to green. Once you’ve created a password, click Continue. The following screen appears:

9. Populate all fields, then click Continue. The following screen appears:

10. Select a security code delivery method, email or text. The screen defaults to the method you select.

Note: We recommend that you indicate two methods of Security Code delivery. Check the Use this as my default method checkbox to select your default method.

11. Enter the email or text information, then click Continue. The following screen appears:

12. Enter the security code you received then click Submit.

13. Log in using your email and password.
14. Enter the Security code you received via text or email, then click **Submit**.

<table>
<thead>
<tr>
<th>Security Code</th>
<th></th>
</tr>
</thead>
</table>

- Remember me on this device (and skip this step next time). Do not select this option from a shared device.

- Do you need your security code resent?

15. Click **Go to MyChildrens** to access your MyChildrens account.

Note: Check the Remember me on this device checkbox to skip this step in the future.

The following screen appears:

![Security Code Successfully Submitted](Image)

- Thank you. You can now use your email address and password to access Boston Children's Hospital applications.

16. Click Add a Patient and add a patient to your account.
